# Dayanch Muhammetgeldiyev

**Bursa/Turkey | +905511733483 | muhammetgeldiyevdayanc@gmail.com**

## Objective

 I'm Dayanch. I was born in Turkmenistan, and I came to study in Turkey in 2015. I started learning web-based coding in 2018, and I have been developing web-based programs for 1 year at the newly established Mudanya University, my goal is to add something to humanity with coding. If we use the coding area correctly, I think it will be more beneficial to humanity. One of my goals is to do more robotic coding, not just web-based coding.

## Experience

**FULL-STACK-DEVELOPER** — MUDANYA UNİVERSİTY                                      **2021-08-09 — NOW**

-Designed the front of the **University website** and saved it to the admin panel.

- The University **Automation system.**

- **SEM**  Front-end.

**FRONT-END-DEVELOPER** — FREELANCE                                      **2022-03-05 — 2022-05-05**

- The front-end design of the **halk anketi**

                                                                                          **2020-12-13 — 2021-09-05**

**FRONT-END-DEVELOPER** — FANUS SOFTWARE

- The Front-end design website

## Skills & Abilities

- JavaScript advanced.

- React frameworks.

- TypeScript advanced.
